Anne & Scope

JITED is a peer-reviewed journal, focuses on international economics, economic development and more, importantly, the interface between trade and development. The links between trade and development economics are critical at a time when both fluctuating commodity prices and trade liberalisation and agreements can radically affect the economic outcomes.

JITED is designed to meet the needs of international and development economists, economic historians, applied economists and policy makers. The international experts who make up the Journal's Editorial Board encourage contributions from economists worldwide.

Notes for Contributors

All submissions should be made online at the International Journal of Trade & Economic Development Manuscript Central site (link to http://mc.manuscriptcentral.com). New users should first create an account. Once a user is logged onto the site submissions should be made via the Author Centre.

Authors should prepare and upload two versions of their manuscript. One should be a complete text, while in the second all document information identifying the author should be removed from files to allow them to be sent anonymously to referees. When uploading files authors will have the ability to define the non-anonymous version as ‘File not for review’ when submitting your manuscript, please upload all of your original source files.

Submissions to JITED will be taken to indicate that it is a new, unpublished work. Manuscripts submitted for publication should be accompanied with all necessary documentation. If the submission is accepted for publication, the authors agree to assign to Economic Policy all rights to reproduce and distribute the article the authors have given to the publishers, including reprints, photoreproductions, microforms, or any reproductions of a similar nature, and translations.

1. The submission should include a cover page showing the author’s name, the department where the work was done, an address for correspondence, if different, telephone numbers, email address and any acknowledgements.

2. Submissions should be in English, typed in double spacing with wide margins, one side only of the paper, preferably of A4 size. The title, but not the author's name should appear on the first page of the manuscript. Furthermore, to assist objective, the author should avoid any reference to him or herself which would enable identification by referees. Article titles should normally be as concise as possible. The difficulty and expense involved in making amendments at the proof stage is considerable. Acceptance: Note that any alterations to the original text are strongly discouraged. Authors should ensure that their submitted manuscripts have been carefully proofread.

3. Tables and figures should not be inserted in the pages of the manuscript but should be set on separate sheets. They should be numbered consecutively in Arabic numerals with a descriptive caption. The desired position in the text for each table and figure should be indicated in the margin of the manuscript. Permission to reproduce copyright material must be obtained by the author before submission and any acknowledgement should be included in the typescript or captions as appropriate.

4. Use The Chicago Manual of Style system of referencing which gives the name of the author and the date of publication as a key to the full bibliographical details which are set out in the list of references. When the author’s name is mentioned in the text, the date is inserted in parentheses immediately after the name, as in “Smith (1970).” When a less direct reference is made to one or more authors, both name and date are bracketed, with the references separated by a comma, so, in several authors (1970) Smith (1970) Cook (1968), Dobs (1973). Where the reference is to a work of several authors, use only the surname of the first author as in “Smith and Dobs (1970)” or Jones et al. (1990). If an author has two references published in the same year, add lower case letters after the date to distinguish them, as in “Smith (1980a, 1980b).” Always use the minimum number of figures in page numbers, dates, etc., e.g. 2-4, 105-6 (but 112-13 for ‘teen’ numbers) and 1968–9.

5. Footnotes should be used only where necessary to avoid interrupting the continuity of the text. They should be numbered consecutively using superscript Arabic numerals. They should appear at the end of the main text, immediately before the list of references.

6. Submissions should include a reference list, in alphabetical order, at the end of the text. The content and format should conform to the following example.

Article in edited volume: Kitchen, J. 1974. Lawrence Dicksee, depreciation and the double-account system. In Debits, credits, finance and...
International trade, economic transactions that are made between countries. Among the items commonly traded are consumer goods, such as television sets and clothing; capital goods, such as machinery; and raw materials and food. Learn more about international trade in this article. 

Senior Economist, International Bank for Reconstruction and Development, Washington, D.C. Former Professor of Economics, State University of New York at Binghamton. See Article History. Alternative Title: foreign trade. International trade, economic transactions that are made between countries. Among the items commonly traded are consumer goods, such as television sets and clothing; capital goods, such as machinery; and raw materials and food. Supports economic development and regional cooperation by providing trade and project financing, guarantees, and equity for development projects supporting both public and private enterprises in its member countries. Objectives of the bank include promoting regional trade links, cross country projects, foreign direct investment, supporting activities that contribute to sustainable development, with an emphasis on the generation of employment in the member countries, ensuring that each operation is economically and financially sound and contributes to the development of a market orientation. 

Description: The United Nations Economic and Social Commission for Asia and the Pacific (ESCAP) is the regional development arm of the United Nations for the Asia-Pacific region.
