Gifted Books, Gifted Readers: Literature Activities to Excite Young Minds

By Nancy J. Polette

ABC-CLIO, United States, 2000. Paperback. Book Condition: New. New. 282 x 221 mm. Language: English. Brand New Book ***** Print on Demand *****. Stretch young minds to creative and productive thought with some of the best literature currently available. Polette shows you how to promote critical thinking, decision making, and problem solving through building excitement for the reading experience and increasing students active participation in learning. She offers suggestions for creative reproduction, elaboration, rearrangements and transformations of text to help children connect reading content to their own experiences. A wonderful resource for elementary and middle school teachers of the gifted, these books and activities can be used in any classroom. Also an important read for college-level courses on curriculum for the gifted and children's literature.

Reviews

Great electronic book and useful one. It can be written in straightforward terms rather than difficult to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.
-- Kian Harber

It is really an awesome pdf that I actually have actually study. It really is basic but excitement from the 50 % of the publication. I am delighted to inform you that here is the greatest book i have read through within my individual existence and can be he finest publication for actually.

Gifted Readers: Literature Review. Gifted Readers are Different. Some gifted children, called "globally gifted," score high on all parts of IQ tests. Winner (1996) studied these children and found they do not follow the learning patterns typical of average children. Their book selections included nonfiction titles— even atlases and encyclopedias. While Winner (1996) describes children with language gifts as voracious readers, the literature indicates that their teachers and peers are not. Kolloff (2002) studied both in-service and student teachers, and found that neither group was committed to reading for pleasure. Genius denied: How to stop wasting our brightest young minds. New York: Simon & Schuster. Gallik, J. (1999).
Gifted kids can be a joy to teach when you know how to identify what engages them. These 50 tips and tricks are great to have in your back pocket. It is true, so many gifted students have found a book that becomes so much a part of them, they can discuss it at length. Bibliotherapy is a great way for students to experience how to deal with issues and learn tactics and strategies. 22. Pre-Assess Them. This type of activity develops fluency, elaboration, originality and abstract thinking, which are all integral parts of being a creative thinker. Try Google’s Quick, Draw! It’s a great tool for getting students to think rapidly and is also a gem for indoor recess.
