NATURAL HISTORY

Gudmunsson, Agust. The Glorious Geology of Iceland's Golden Circle. Springer, 2017. ISBN-10: 3319551515 / ISBN-13: 978-3319551517. *Note from Prof. Savina: “Although the focus is on the Golden Circle (Geysir, Gullfoss and Thingvellir), the guide also does a decent job covering some basics of the geology. Also, it covers some other areas where we will go in southern Iceland: the Reykjanes peninsula, Eyjafjallajokull and Reynisfjara, and (nearer to Reykjavik) a couple of areas that folks coming earlier or staying later might be able to get to on their own.”*

A more detailed geologic companion to Iceland covers rifting of the crust, volcanic eruptions and glacial and other geologic activity in detail.

Jordan, Brennan T., Tamara L. Carley, and Tenley J. Banik. *Iceland: The Formation and Evolution of a Young, Dynamic, Volcanic Island—A Field Trip Guide*. GSA Field Guide, Geological Society of America, 2019. EISBN: 9780813756547. *Note from Prof. Savina*: “This field guide can be ordered through the GSA ($40; $28 for members, of whom there are a few on the trip). Easiest way to purchase is online: [http://rock.geosociety.org/store](http://rock.geosociety.org/store)″

Holm, Bill. *The Windows of Brimnes, An American in Iceland*. Milkweed Editions, 2008. ISBN-10: 1571313109 / ISBN-13: 978-1571313102. In these provocative essays, Minnesotan Bill Holm writes about the fate of America from his fisherman’s cottage on the shore of a creek in northern Iceland. *Note from Prof. Savina*: “…Holm [was a] Minnesota writer/educator of Icelandic descent, who taught at Southwestern State University in Marshall, MN. His other books include Coming Home Crazy (about spending a year teaching English literature in China), Box Elder Bug Variations (about, well, box elder bugs) and several others. He died in February 2009.”
