Unpublished Works and Internet Articles
Studies in Christian Ethics adheres to a rigorous double-blind reviewing policy in which the identities of the referees and the author are concealed from all parties. Each manuscript is reviewed by at least two referees and their reports are forwarded directly to authors within approximately 8 weeks, after which an editorial decision is made. Studies in Christian Ethics and SAGE take issues of copyright infringement, plagiarism or other breaches of best practice in publication very seriously. We seek to protect the rights of our authors and we always investigate claims of plagiarism or misuse of published articles.
