Having proper table manners is one way people judge others and you don't want people to think that your children are barbarians, do you? Believe it or not, table manners are taught as soon as your child understands what you're saying. Also, teach your kids try a little bit of everything that is served even if they do not like the food. This is especially beneficial when your kids spend the night at a family or friends house. The family member or other parents will be very impressed with this good table manner. Tiffany's Table Manners for Teenagers is a wonderful book that includes social politeness as well as how to eat, useful and entertaining for adults too. AUTHOR. RickByrd1.
